K'ARCHER

The checks

A range of testing is being employed

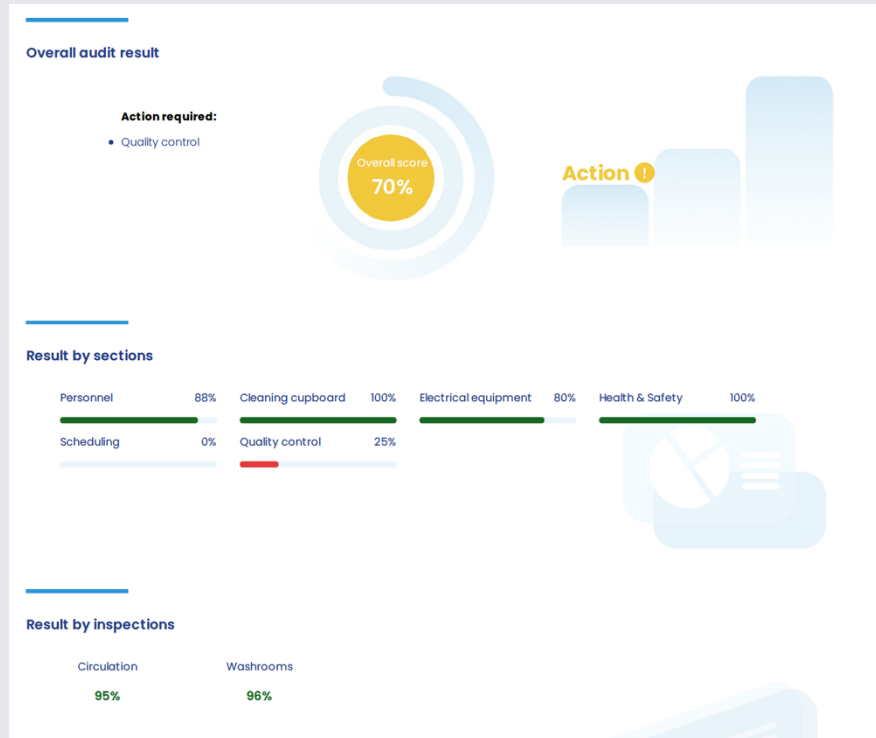

- Cleaning Audits
- Biological swabs
- Air quality

The results

Shown as

- % change on quality standards

The results

Shown as

- Biological results pre and post trial

The results

Shown as

- Air quality checks pre and post trial

The results

Shown as

- Cleaning operative feedback

The results

Shown as

- Site management feedback

The report

To be completed following all the results and feedback from the trials
